## VISION & MISSION

We believe that all people have the right to integrate with others in our community, re-educate, train, work and gain the relevant experience to progress to future full-time employment.

Our mission is to promote social inclusion and provide accessible training opportunities to serve the needs of the local community.

## LOCATION

NCE Outreach operates from Northside Community Enterprises located at St Finbarr's, Farranferris, on the northside of Cork city.

## NCE OUTREACH

NCE Outreach offers training and employment opportunities for people engaged with The Probation Service and the addiction treatment services offered by Tabor Group & Cuan Mhuire, through Northside Community Enterprises.

For some people it can be daunting to return to society on completion of their addiction treatment programme, especially if they lack financial and/or family support. NCE provides an option to engage in training and education during this transition period.

NCE's Outreach programme helps to improve education, training and employment prospects, increase confidence and self-awareness. Participants are assisted in identifying their next steps regarding possible retraining or upskilling. Help and support is provided to participants to return to work or education during or after their time in rehabilitation.

## FUNDING & SUPPORT

Support from The Department of Social Protection and Cork Education & Training Board (CETB) ensures that we can provide training, personal development and employment for participants of NCE Outreach, in a safe and non-judgmental environment.

In September 2020, NCE Outreach was awarded funding under Rethink Ireland's Sustainable Cork Fund.

We are delighted and proud to work with the following:
